

Hedrick's Exotic Animal Farm

Dear Teacher,

Each class packet includes:

- This intro sheet.
- A teacher's key to the "photo album" and additional information.
- A "Photo Album" sheet which can be reproduced for each student.
- A game sheet that can be reproduced for each student.
- A letter to parents which can be reproduced.

You'll be visiting a working farm, so wear appropriate footwear! You'll be in out-buildings, so dress comfortably.

Light rain does not have much of an effect on the tour – most of our animals can be accessed from indoors. If storms delay your visit we will gladly work with you to reschedule.

We have areas where your students may eat their sack lunches. Please make arrangements prior to your visit.

Large groups will be split to ensure a quality tour. Each guide will handle up to 25-30 people; if you have a preference of group composition, please divide them before the tour begins.

In the spring, tours are often booked back-to-back; so please try to be 10 minutes early to allow time for restrooms and stretching. It is vital that you do not arrive late, as there may not be adequate time for your group to see everything.

Hedrick's provides free ice water and cups. Animal souvenirs and objects are offered in the lobby Gift Shop.
